TECHNICAL PRODUCT SHEET

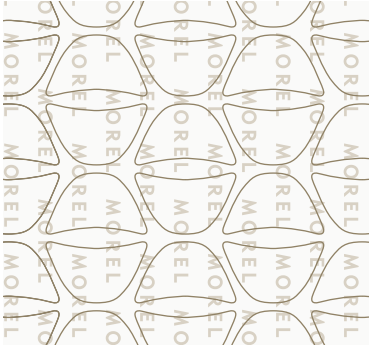

INSTRUCTIONS

THE RIGID TOEPUFF

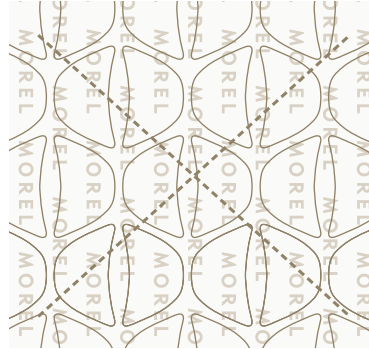

MOREL
MILANO

CUTTING DIRECTION

RIGHT WAY

WRONG WAY

THANKS TO OUR UNIQUE PRODUCTION PROCESS AND THE USE OF SELECTED RAW MATERIALS, **COMPLETEX** IS ONE OF THE MOST PERFORMING AND EASY TO WORK TOEPUFF IN THE WORLD

IMITATION WARNING

All our products are densely printed on one side. This is because we have been imitated all over the world and we all want to be sure that if you ask for Morel you get the real one!

COLOUR

All our products are based on natural fibers. This is the reason why the colour of some products might slightly change from lot to lot. Nevertheless the performances are not affected by this.

WE RECOMMEND IT FOR

OXFORD

INSTRUCTIONS

1 FOR COATED

Lay the thermo-adhesive side of the toepuff on the upper and press with a hot press (temperature of 160°-180°C for 6-8 seconds)

FOR UNCOATED

Apply glue on the upper by spray or brush, then, lay the toepuff on the upper.

2

Apply the glue on the toepuff too, by spray or brush

3

Lower the lining and press hard with your hand

THE PRODUCT CAN BE LASTED IN **ANY SHAPE** YOU WISH, WITH A MINIMUM AMOUNT OF HEAT, WITHOUT BREAKING!

PRODUCT	UNCOATED THICKNESS mm	COATED (T) THICKNESS mm
